

China's Leading Women's Hair Removal Razor Brand

BRAND INTRODUCTION

Domon Dolly is a women's brand under Yingjili (Foshan Yingjili Electric Equipment Co., Ltd.), founded in 2000. Yingjili is one of the few Chinese companies with its own technology to produce pathological blades and razor heads, providing Domondolly with a strong manufacturing foundation.

With the core philosophy of “natural, healthy, sustainable,” Domon Dolly focuses on R&D and manufacturing of women's and personal care hair removal tools, committed to offering safer, healthier lifestyles.

Before Domon Dolly, Chinese hair removal razor standards varied widely. Domon Dolly Dot hair removal razor redefines the boundary between safety and effectiveness — scratch-free blade head protects skin; aloe vera nourishes while removing hair. It upgrades hair removal from “simple removal” to “ingredient-level care,” creating a new path in personal care. With 25 years of technical expertise, hair removal can be so natural and comfortable — no need to settle.
